MCAA (715)

SEP 22 2000

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: U.S. Army Medical Command (MEDCOM) Health Care
Acquisition Activity (HCAA) Advanced Acquisition Planning
Program (AAPP) Assistance

1. In an effort to assist all MEDCOM customers in planning for the future, the HCAA has established an AAPP to project future requirements. Your active participation and input will allow the HCAA to improve your support during these austere times of reduced personnel resources and corresponding increased contractual requirements. This forum also allows for our organizations to jointly strategize the best contracting methods to provide the right contracting support at the right price at the right time. I encourage you to review the information herein and participate in our AAPP through your supporting HCAA Office Chief and staff.

2. As in any endeavor that looks to the future, we need to look at where we have been and use historical information to improve planning. The HCAA's MEDCOM Contracting Centers and Regional Contracting Offices have compiled a consolidated inventory list of all current master contracts (Enclosure 1). A master contract is designed to be open-ended enough to meet multiple organizations' requirements, yet specific enough to meet your unique requirements in various regions. These master contracts are available for issuing Task/Delivery Orders for goods and services throughout the MEDCOM. The AAPP has identified additional existing contracts for conversion to master contracts for ordering as above based on our understanding of currently identified requirements and projections. HCAA Office Chiefs will furnish updated copies of this list to all supported organizations and work closely with all activities to identify both known and potential contracting requirements for Fiscal Year 2001 and beyond.

3. Your participation and input will improve the Advanced Acquisition Planning Program as a forum to publicize, coordinate, and ensure that we have contractual instruments

MCAA

SUBJECT: U.S. Army Medical Command (MEDCOM) Health Care Acquisition Activity (HCAA) Advanced Acquisition Planning Program (AAPP) Assistance

in place for prompt ordering of our goods and services. Some advantages and incentives for using the MEDCOM contractual vehicles and contracting offices include:

a. MEDCOM-owned contracting offices are already funded and in place to provide your support at no surcharge or fee.

b. The HCAA contracting employees are well-trained and have experience in a broad spectrum of contracting support, and they are the most experienced DOD contracting organization in providing health care provider contracting in both personal and non-personal services contracts.

c. The HCAA's primary focus is their AMEDD customers, whereas outside contracting offices will be juggling priorities among other customers they support.

d. The HCAA is fostering multiple partnerships to utilize external agency contracts with decentralized ordering authority to provide you "on the ground" service. Decentralized ordering authority allows your HCAA office to place orders rather than you having to work with the external agency. For example, our contracting offices will award and administer task/delivery orders (under both our contracts and orders against available General Services Administration/several other instruments) for MEDCOM activities without imposing additional service charges/fees. In some cases, we might achieve a reduced fee from our agency contracting partners to pass on to you.

e. Our organization structure allows regional commanders to retain oversight and effectiveness through your supporting HCAA contracting office while maximizing efficiency through centralized master planning and contracting. In addition, commanders have improved oversight of fund expenditures.

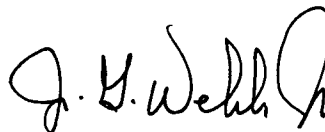

MCAA

SUBJECT: U.S. Army Medical Command (MEDCOM) Health Care Acquisition Activity (HCAA) Advanced Acquisition Planning Program (AAPP) Assistance

f. Even though your regional supporting contracting office may be small, the HCAA works together as one office, resulting in a larger resource availability that you may tap into at no additional support costs.

4. Your servicing HCAA offices, chiefs, and deputies are identified for you at Enclosure 2. You may contact them to ask general questions, seek business advice, add requirements to our projections, or determine if contracts can be modified to meet your needs. Please give HCAA first consideration in providing your contract support.

5. Our point of contact is LTC Paul G. Michaels, U.S. Army Medical Command Health Care Acquisition Activity, DSN 471-6786 or Commercial (210) 221-6786.

2 Encls

JOSEPH G. WEBB, JR.
Brigadier General, U.S. Army
Head of Contracting Activity
